Dear Parent/ Carer,

We are thrilled to announce that our school will be participating in an exciting program providing Year 10 students with a one-to-one device. As part of this initiative, every student in current Year 10 will be provided with a personal Chromebook. This one-to-one device program aims to enhance our students' learning experience by integrating technology into their daily education.

Additionally, we are using an app called **The Big Teach App**. This innovative tool will allow us to provide students with more frequent and detailed feedback on their progress, helping them to achieve their academic goals more effectively.

Benefits of this program include:

- **Equal access to technology:** Every student will have the same opportunities to use digital tools, ensuring a level playing field for all.
- **Skills development:** Students will develop essential digital skills that are crucial for their future academic and professional success.
- **Adaptability:** The integration of technology will help students become more adaptable and prepared for the ever-changing digital world.

To find out more about this exciting opportunity and to collect your child's Chromebook, we will be hosting a parent session. This will be an opportunity for all current Year 7 parents/carers to attend a talk (with their child) before collecting their Chromebooks.

For Population B, Tutor Groups 10.5, 10.6, 10.7 and 10.8 the talk will be held at 3.15pm on Tuesday 15th September 2026.

Students are requested to bring their smartcards with them to show on collection of the Chromebook.

We believe these advancements will significantly benefit our students and are eager to see the positive impact on their learning journey. We appreciate your support and cooperation as we embark on this new chapter.

Students will have a session on Thursday 17th September to introduce them to Chromebook usage.

If you have any questions or need further information, please do not hesitate to contact us.

Yours Sincerely,

Helen Coles-Hennessy

Associate Principal
